

## When it come to your presentation, here are some

- You and your achievements should be the focus of the video. Find a good place to film yourself free of distractions or a busy background. A blank wall would be great.
- Remember to dress appropriately. Professional dress is recommended, this includes your: “Sunday Best,” and/or a nice shirt, blouse, etc.
- Always be as brief as possible. The video should not be longer than 4 minutes. It should only cover the highlights of your project. Please see the *Content Guide What to Include* below.
- Be careful to speak slowly and clearly, it is important that the judges understand what you are trying to communicate.
- Stay on track! You may want to use note cards or an outline to remind yourself of 3-5 important points.
- Speak as if you are talking to a teacher or someone who already knows about your subject. Judges are assigned to projects based on their experience and the subject of your project.
- Practice first (you might want to do this in front of other people or a mirror) and make multiple videos. Then pick the best one.

### Here is what to avoid

- Busy and distracting environments. We know that everyone is stuck at home and peace is hard to come by, but try to find a place and time when you and your work can shine.
- Clothing that displays words or imagery that others might find offensive or distracting.
- Rushing and long-winded explanations. You've done great work, don't let it get lost because you are too excited to show it. Be proud but be heard!
- Just reading your project document. You have 4 minutes, don't waste it!
- Waiting until the last moment. Creating a good video takes time and you want to show your best work.
